(b) what percentage of work has been completed so far; and

(c) how many people have so far been benefited?

THE MINISTER OF STATE IN THE MINISTRY OF RURAL DEVELOPMENT (SHRI A. RAJA): (a) As per the information furnished by the Government of West Bengal, an expenditure of Rs. 3486.25 lakhs has been incurred so far on Neora-Khola drinking water project. This amount includes operation and maintenance costs of Rs. 172.76 lakhs during the year 1992-93 to 1996-97. From 1997-98, fund for operation and maintenance is being provided separately.

(b) Neora-Khola drinking water project has been commissioned without construction of two ground reservoirs. Cost-wise, 90% of the works may be said to be completed.

(c) The scheme involves conveyance of water over more than 80 K.M. stretch of pipeline in most difficult landslide prone hilly terrain. Presently, 12.83 lakh gallons of water is being received from Neora-Khola and Dhaulakhola Sources against a design of 15 lakh gallons per day. The scheme is to provide seven lakh gallons of water per day to the Army establishment at Durbrinda, Algarahand and Pedong. Presently, however, it is being possible to supply 1.45 lakh gallons of water per day to the Army establishment-mainly due to unauthorised tapping. To avoid this, fixed time supply to rural enroute population and a dedicated pipeline for the Army have been thought of.

The rest of the water is being provided to Kalimpong Municipality to serve the people of Kalimpong town. The population of Kalimpong Municipality is 38,787 as per 1991 census.
